SUMMARY

This summary should be read as an introduction to the prospectus. Any decisions to invest in shares in the Companies should be based on consideration of the prospectus as a whole. The Opportunity

- Puma VCT V and Puma VCT VI are new Venture Capital Trusts providing Investors with an opportunity to invest, with significant tax benefits, in a growth capital fund managed by Shore Capital

Investment Strategy of the Fund

- to invest in relatively lower risk, VCT qualifying companies and non-VCT qualifying assets
- to create a diversified portfolio of investments in smaller UK based companies, largely unquoted but possibly including stocks quoted on AIM or PLUS
- to make extensive use of loans (including convertible loans) to investee companies and seek to take security over their assets
- to take advantage of the tighter market in credit which has followed the “credit crunch” of August 2007
- the non-VCT qualifying portion of the portfolio is to be invested in hedge funds, structured products and other investments with a focus on absolute return
- endeavour to achieve high tax free dividend distributions to Shareholders

Two Parallel VCTs

- the Fund may consist of two VCTs each raising up to £20 million which will have the same investment policies and strategies and will generally invest or divest *pro rata* to their respective sizes. Each VCT will be able to invest up to £1 million in any Qualifying Investment

Substantial Tax Reliefs

Investors will receive the following tax benefits:

- **Income tax relief at 30 per cent.** on the amount invested, up to a maximum investment of £200,000 per tax year (£400,000 for a married couple provided that each spouse invests up to the £200,000 individual limit)
- **Tax free dividends and capital distributions** received by an Investor from a VCT are tax free
- **Capital gains tax exemption** on the disposal of VCT shares

Income tax relief means that a 70p net cost of investment “purchases” 98p of net assets.

Benefit of the tax reliefs will be lost where there is any disposal (except on death) of the shares (or an interest in them or right over them) before the end of five years beginning with

the date of issue of the shares.

Experienced Investment Manager

- the Companies will be managed by experienced unquoted companies fund manager Shore Capital

The Boards

- the Board of Puma VCT V consists of three Directors, namely David Vaughan, Stephen Hazell-Smith and Graham Shore (who is a director of Shore Capital)
- the Board of Puma VCT VI consists of three Directors, namely Jeremy Prescott, Jon Morton-Smith and Graham Shore

Further features of the Fund

- very low issue costs of 2 per cent. (normally 5-5½ per cent.)
- the Boards intend to review the invested portfolio after five years with a view to distributing the capital back to Shareholders

Performance Incentive

Shore Capital and members of the investment management team will be entitled to receive 20 per cent. of all cash paid or other distributions made by the Companies once the Companies have paid to Shareholders after the Closing Date (whether by way of dividend, distribution or otherwise) the original £1 invested. Thus the Investment Manager has a strong incentive to make distributions as high and as soon as possible.

Risk Factors

The attention of the Investors is drawn to the following summary of the principal risk factors:

- Tax Reliefs – If the Companies do not maintain VCT qualifying status Investors could lose tax reliefs associated with this investment.
- Liquidity – Although the Companies' shares will be listed and it is intended to operate a buy-back policy in appropriate circumstances it is unlikely there will be a liquid market in the Shares and it may prove difficult for Investors to sell their Shares.
- Performance – There are risks associated with the investments that the Fund will undertake. Investments are likely to be primarily in private companies or those whose shares are not traded or readily marketable or, where they are, the markets may be illiquid. The Non-Qualifying Investments Portfolio may be invested in funds which directly or indirectly invest in derivative or other potentially volatile instruments which may be difficult to value and illiquid. These factors could cause the Companies to be subject to substantial losses. Under VCT rules, at the point of investment investee companies may not have gross assets in excess of £7 million and must have fewer than 50 employees. Such companies generally have a higher risk profile than larger companies.
- If materially less than the intended £40 million is raised under the Offers, the investment portfolios may be less diversified.

Risk Factors

Prospective Investors should be aware that the value of Ordinary Shares can fluctuate and that they may not get back the amount they invest. In addition, there is no certainty that the market price of Ordinary Shares will fully reflect the underlying net asset value, that Shareholders will be able to realise their shareholding or that any dividends will be paid. An investment in the Companies should be viewed as a longer-term investment. The attention of prospective Investors is drawn to the following risk factors:

- The past performance of the Investment Manager is no indication of its future performance.
- An investment in a Venture Capital Trust may not be suitable for all Investors. If Investors have any doubts, they should seek advice from their independent financial adviser.
- Investments made by the Fund may be in companies, including private companies, whose shares are not publicly traded or readily marketable and, therefore, may be difficult to realise. The fact that a share is traded on AIM or PLUS does not guarantee its liquidity. There may also be constraints imposed on the realisation of investments to maintain the VCT tax status of the Fund.
- The Non-Qualifying Investments Portfolio may be invested in investment funds which may themselves invest in a diversified portfolio of derivative instruments, commodity contracts and other funds which utilise leverage and it may construct for itself a diversified portfolio of such investment funds. These underlying investments in the portfolio may be highly volatile. Some of these funds may not be regularly traded on an exchange which may impact upon the accuracy of the determination of the net asset value of these investments. These funds may also be illiquid and, therefore, difficult to realise. As a result the Fund may be subject to substantial losses in relation to these investments.
- Investments in private companies require specific deal structuring and detailed due diligence, the conclusions of which may subsequently be shown to be incorrect. Standards of corporate governance in private companies are generally lower than in quoted investments and often dependent on minority investor protections which the fund is able to negotiate in advance. While investments in private companies can offer opportunities for above average capital appreciation, these investments involve a higher degree of risk and can result in substantial losses.
- It is possible for Investors to lose their tax reliefs by themselves taking or not taking certain steps, and Investors are advised to take their own independent financial advice on the tax aspects of their investment.
- Levels and bases of, and relief from, taxation are subject to change. Such changes could be retrospective. Those shown in this document are based upon legislation, practice and interpretation current at the date of this document and upon the individual circumstances of Shareholders.

- Although it is anticipated that the Ordinary Shares will be admitted to the Official List and to trading on the London Stock Exchange's market for listed securities, there is likely to be an illiquid market in the shares and in such circumstances Investors will find it difficult to realise their investment.
- The Fund will invest in companies with gross assets of not more than £7 million prior to investment and with fewer than 50 employees at the point of investment. Such companies generally have a higher risk profile than larger "blue chip" companies.
- Whilst it is the intention of the Directors that the Fund will be managed so as to qualify as a VCT, there can be no guarantee that it will qualify or that such status will be maintained. A failure to meet the qualifying requirements could result in the Companies losing the tax reliefs previously obtained, resulting in adverse tax consequences for Investors.
- Investors who sell their Shares within 5 years of allotment will have to repay their initial income tax relief and it is therefore probable that the market in the Shares will be illiquid for at least 5 years.
- The information in this document is based on existing legislation, including taxation legislation. The tax reliefs described are those currently available. Levels, bases of, and relief from taxation are subject to change. Such change could be retrospective. The value of tax reliefs depends on the personal circumstances of holders of Shares, who should consult their own tax advisers before making any investment.
- The Directors are committed to maintaining the Companies' VCT status but there can be no guarantee that either Company will find sufficient Qualifying Investments by the end of its third year or fulfil the other criteria to enable it to qualify as a VCT or to maintain full VCT status thereafter. If the Companies lose their approval as VCTs before Investors have held their shares for five years, the 30 per cent income tax relief obtained will have to be repaid by such Investors. Following a loss of VCT status, an Investor will be taxed on dividends paid by the Companies, and in addition, a liability to capital gains tax may arise on any subsequent disposal of Shares.
- Where full approval as a VCT is not maintained, any dividends previously paid to holders of Shares will be liable to be assessed to income tax in the year in which they were paid. Interest may also be due. The Companies will also lose their exemption from corporation tax on capital gains. If at any time VCT status is lost, dealings in the shares will normally be suspended until such time as the Companies have published proposals to continue as VCTs or be wound up. Further information concerning the loss of VCT status is set out in Part IV of this document.
- Each of the Companies is seeking to raise up to £20 million by the Offers. To the extent that a relatively small level of funds is raised by the Companies, there can be no guarantee that all the Companies' investment objectives and intended management costs will be achieved or that suitable investment opportunities will be

identified in order to create a diversified portfolio.

- The Companies' hedge fund investments can carry a greater risk than the Non-Qualifying Investments traditionally made by VCTs.
- The performance of the Companies' hedge fund investments is affected by the selection of funds and portfolio managers by Shore Capital and by investment decisions of such portfolio managers. There is no guarantee that the Companies will meet their investment objectives.
- The Companies' hedge fund portfolios and exposure is subject to market fluctuations. There can be no assurance that appreciation will occur or that losses will not be incurred. Asset allocation will vary during market cycles.
- To the extent that hedging techniques are used, there is no guarantee that these will have their intended effect.

Letter from the Chairmen

Puma VCT V plc
Puma VCT VI plc

23 January 2008

Dear Investor

Puma VCT V and VI are new Venture Capital Trusts which will be managed by Shore Capital's successful fund management team. Their structure and investment strategy have been based on the attractive model developed for the Puma VCTs which together raised £60m in 2005 and 2006.

The investment objective will be to maximise distributions to Shareholders by investing in a diversified portfolio of smaller companies, principally unquoted companies but possibly also including stocks quoted on AIM or PLUS, which Shore Capital believes will have the potential for value appreciation, but with a relatively lower risk profile. Initially, whilst suitable Qualifying Companies are being identified, the Investment Manager will invest the net proceeds of the Offers in a range of investments intended to generate a positive return, including products which aim to achieve an absolute return such as funds of hedge funds. The Companies will continue to hold a proportion of such products after three years.

Each of the Companies has been structured as a VCT to take advantage of the substantial tax reliefs available for VCTs, including 30 per cent. income tax relief on the amount invested which results in an investment having an effective cost of 70p acquiring 98p of net assets (after issue costs of 2 per cent.).

The Investment Manager has a strong track record, built up over the past 12 years, of investing in smaller growing companies. In periods of strong performance of smaller companies Shore Capital has generally delivered excellent returns, whilst in more difficult conditions it has protected capital and delivered a satisfactory growth in net assets. The Companies have been structured to achieve the objectives which, we believe, make sense for Investors in this changed fiscal environment. The Investment Manager will endeavour to deliver strong returns to Investors without incurring undue risks.

The Investment Manager will manage the Companies' assets proactively with an emphasis on realising gains in the medium term. It will seek to select Qualifying Investments with a strong emphasis on reducing downside risks as well as gaining upside. High risk investments will be avoided, whilst solid and well managed growth companies, whether unquoted or AIM/PLUS-traded, will be selected. The Investment Manager will seek to make extensive use of loans (including convertible loans) to investee companies and seek to take security over their assets. The intention is to seek to take advantage of the tighter market in credit which has followed the "credit crunch" of August 2007.

Each of the Companies will have the same investment objectives and will generally co-invest on a *pro rata* basis with the Puma VCTs allowing a greater investment size in each

investee company and enhanced deal flow.

A further feature which differentiates the Companies from other VCTs in the marketplace are their low issue costs. Issue costs of between 5-5½ per cent. of funds raised are typical in the VCT sector. The consequence is that the initial funds which an investment manager has to put to work are materially less than those the shareholder invested. The issue costs of the Companies, like the Puma VCTs, are 2 per cent. of the funds raised, which should improve the prospects of attractive returns to Investors.

It is intended that the Ordinary Shares will be listed on the Official List of the UK Listing Authority and will be admitted to trading on the London Stock Exchange's market for listed securities. It is envisaged that each Company should not have a fixed life but the Directors will review the portfolio after the first 5 years of trading with a view to an orderly liquidation of its assets and the distribution of capital and income to the Shareholders. Any such distributions are expected to be free of tax to UK taxpayers.

Investors will be able to claim income tax relief on 30 per cent. of the value of Ordinary Shares. This means that for taxpayers every share in the Companies with a subscription cost of £1 will actually cost only 70p. Investors will also continue to benefit from tax free dividends and capital gains tax exemption on the disposal of the Companies' Shares.

The Directors have committed to invest £240,000 under the Offers on the same terms as Investors.

We very much look forward to welcoming you as a Shareholder.

Yours sincerely

David Vaughan

1.1 The Offers

Introduction to the Offers

The Companies are new VCTs which will be managed by Shore Capital's successful fund management team. Their structure and investment strategy have been based on the attractive model developed for the Puma VCTs which together raised £60m in 2005 and 2006.

The investment objective will be to achieve high distributions to Shareholders. The Companies will invest in a diversified portfolio of smaller companies, principally unquoted companies but possibly also including stocks quoted on AIM or PLUS, selecting companies which Shore Capital believes will have a relatively lower risk profile than is typical for their size whilst having the opportunity for value appreciation. Initially, whilst suitable Qualifying Companies are being identified, the Investment Manager will invest the net proceeds of the Offers in a range of investments intended to generate a positive return, including products which aim to achieve an absolute return such as funds of hedge funds. The Companies will continue to hold a proportion of such products after building up the desired holdings of Qualifying Companies.

The Companies have been structured as VCTs to take advantage of the substantial tax reliefs available for investing in VCTs including 30 per cent. income tax relief on the amount invested, which results in an investment costing 70p acquiring 100p of assets, less issue costs of only 2p in the £1, compared to the 5-5½p in the £1 more typically charged in the industry.

Shore Capital has a strong track record built up over the past 12 years of investing in smaller growing companies. In periods of strong performance of smaller companies, Shore Capital has generally delivered excellent returns, whilst in more difficult conditions it has protected capital and delivered a satisfactory growth in net assets.

The Investment Manager will manage the Companies' assets proactively with an emphasis on realising gains in the medium term. Shore Capital will select Qualifying Investments with a strong emphasis on reducing downside risks as well as gaining upside. High risk investments will be avoided, whilst solid and well managed growth companies, whether unquoted or AIM/PLUS-traded, will be selected.

Each of the Companies will have the same investment objectives and policies. The Directors believe that launching two VCTs which will co-invest together will allow a greater investment size in an investee company than would be possible for a single VCT investing alone. This should permit the more efficient deployment of Investors' capital in fewer, larger investments with a view to reducing the overall investment risk.

The Boards of each Company consist of individuals who have significant commercial, banking, investing and VCT experience. Details of the directors are set out on pages 20 to 21. It is the intention that the Companies will invest and divest together pro rata to their size and will therefore hold identical portfolios except that Puma VCT V may

close its fundraising earlier and hence begin investing earlier. To the extent that Puma VCT V makes a Qualifying Investment prior to the close of the fund-raising of Puma VCT VI, the portfolios may be different.

A further feature which will differentiate the Companies from other VCTs is their issue costs. Normally these are between 5-5½ per cent. of the funds raised, the consequence being that the initial funds which an investment manager has to put to work are less than the amount investors provided. The issue costs of the Companies are limited to 2 per cent. of the funds raised, thereby improving the prospects of attractive returns to Investors.

It is proposed to raise up to an aggregate of £40 million by means of the Offers. It is expected that the Ordinary Shares will be listed on the Official List and will be admitted to trading on the London Stock Exchange's market for listed securities.

The investment opportunity

For its Qualifying Investments, the Fund is expected to invest primarily in companies whose shares are not traded on any exchange, although it may also invest in companies whose shares are traded on AIM or PLUS. The objective will be to identify established companies which seek expansion capital or are subject to a buy-out or buy-in or where, on a selective basis, there is an opportunity to provide liquidity for other shareholders. It is expected that a substantial proportion of the Qualifying Investments will be in the form of mezzanine or fully secured loans, offered together with ordinary equity.

The much tighter market in credit for companies which has followed the "credit crunch" of August 2007 has engendered and, the Directors believe, is likely to continue to engender, a strong demand for this type of offering. The Investment Manager has substantial expertise in structuring and executing these types of financing for Qualifying Companies.

Until suitable Qualifying Investments are identified, the net proceeds of the Offers will be invested in a portfolio of hedge funds and other investments, with a focus on providing absolute returns to Investors or on cash deposit. The Companies will continue to hold a proportion of such products after three years.

The Investment Manager and its track record

Shore Capital is a specialist in managing funds investing in smaller companies and alternative assets. The team at Shore Capital has many years of experience and currently manages approximately US\$3 billion in a combination of alternative assets and private client portfolios.

Shore Capital has a strong track record of 12 years of investing in smaller quoted and unquoted companies and delivering consistent returns, both in periods of strong performance of smaller companies generally, and in tough periods. Puma I, a growth capital fund managed by Shore Capital, delivered net returns to investors after all costs of 76.1 per cent. per annum over the period from May 1996 to August 2000 (when the fund was liquidated and wound up), whilst Puma II, the second growth capital fund launched by Shore Capital in the growth capital area in October 1999, and hence operating in very difficult conditions, has achieved an overall growth in net assets per

share (after all expenses but prior to founders' carried interest) of 61.1 per cent. to November 2007, outperforming the FTSE AIM Index by over 70 per cent. over the same period. Puma II is currently in the process of liquidation. Both these funds have invested in companies of a size and type in which the Companies will invest.

Over the 79 months to November 2007, Shore Capital's portfolio of hedge fund holdings has achieved a 9.9 per cent. per annum internal rate of return. The Puma Absolute Return Fund ("PARF"), was launched in May 2003 as a fund of hedge funds, and listed on the Irish Stock Exchange, and has achieved an annualised return of 8.0 per cent. Shore Capital also jointly managed a property fund, the Puma Property (DD) Fund LLP, which was launched in 2002 and begun its liquidation process in April 2006. Including rents received during the life of the fund the limited partners have made a gain of 130 per cent on their total original investment, representing an internal rate of return of over 39 per cent. per annum.

Shore Capital, together with its partner, established Dawnay Shore Hotels plc ("Dawnay Shore") in July 2004, a specialist vehicle to acquire portfolios of UK hotels. The idea was to create a tax efficient, cash generative investment vehicle to acquire a portfolio of four star regional hotels. In mid-2007, Dawnay Shore's hotel portfolio was valued at £556m, allowing the fund to generate an internal rate of return of 42 per cent.

In March 2006 Shore Capital raised £185m in equity for Puma Brandenburg Limited ("PBL"), a new property fund managed by a subsidiary of Shore Capital, Puma Property Advisors Limited. The fund's strategy is to invest in a diversified portfolio of real estate in Germany both residential, retail and/or commercial space. Since its launch, PBL has entered into binding commitments to acquire assets for approximately €700m. By applying leverage, PBL has the ability to acquire further assets for up to €1.25bn without having to increase its capital base.

In April 2007, Shore Capital raised £75m in equity for St Peter Port Capital Limited, a new fund focussed on investing in pre-IPO companies around the world (primarily non-UK businesses) where the company is expected by the fund manager to achieve an IPO or trade sale within six to 12 months. Since its launch, the fund has invested over 66 per cent. of net funds raised into pre-IPO companies.

Puma VCTs – Progress to Date

Shore Capital launched Puma VCT and Puma VCT II in early 2005 and Puma VCT III and Puma VCT IV in 2006. As with the Companies, the strategy of the Puma VCTs had an absolute return focus. Qualifying Investments to date include:

Cadbury House Hotel & Country Club. A major venue for weddings, conferences and banqueting in the Bristol area with a well-established fitness centre on 14 acres of freehold grounds.

Patsystems plc. An AIM-quoted company involved in the development, distribution and support of software enabling the electronic trading of financial products on global trading exchanges.

Sport Media Group plc. An AIM-quoted, integrated multi-media group that publishes the Sunday and Daily Sport newspapers and digital content for internet and mobile

channels.

Stocklight Limited. Trading under the name, Bernard J Shapero Rare Books, this private business is an internationally recognised dealer in antiquarian and rare books, based in the UK. It is also the parent of Bloomsbury Auctions Limited, an auctioneer of rare books, manuscripts and fine art.

Vertu Motors plc. An AIM-quoted company which acquires motor dealerships.

Universe Group Plc. An AIM-quoted provider of EPOS hardware and software to the petrol forecourt market.

Invu Plc. An AIM-quoted provider of document management software to the SME market.

Mount Engineering plc. An AIM-quoted provider of engineering equipment, principally to the oil and gas sector.

As at the end of November 2007, the estimated fully diluted net asset value per share, including cash distributions, of Puma VCT was 109.0p, Puma VCT II was 109.2p, Puma VCT III was 98.8p and Puma VCT IV was 97.5p. The small difference between Puma VCT and Puma VCT II, and Puma VCT III and Puma VCT IV reflects the timing of their hedge fund investments as Puma VCT II and Puma VCT IV were funded later.

In summary, Shore Capital has substantial fund management experience of investing in smaller companies and alternative assets.

Substantial tax reliefs for Investors

VCTs offer significant tax advantages over other investment products. Income tax relief available on an investment is 30 per cent., up to a maximum of £200,000 invested per tax year, subject to holding the shares for a minimum of 5 years. There is also no tax to be paid on dividend payments nor on any capital gains on sale of the shares.

In summary, the main tax reliefs for Investors are:

- **income tax relief of 30 per cent. on the amount invested up to £200,000 per tax year (£400,000 per married couple, provided that each spouse invests up to their £200,000 limit);**
- **dividends received by an Investor from the VCT are tax free; and**
- **capital gains on the disposal of the VCT shares are tax free.**

The effective cost of a £1 Share in the Companies is therefore only 70p.

Maximum effect of initial tax relief (assuming maximum £200,000 is invested)

	VCT tax relief
Initial investment	£200,000
30 per cent. income tax relief	(£60,000)
Effective current cost of the investment	£140,000

Investors are encouraged to seek their own independent tax advice. Further general information on the tax reliefs available for investing in a VCT is given in the “Tax Considerations for Shareholders” section in Part IV of this document.

1.2 Investment objective

The investment objective will be to achieve high distributions to Shareholders from capital gains and income generated by the Companies’ assets.

1.3 Investment policy

The Companies will seek to invest in a diversified portfolio of smaller companies, principally unquoted companies but possibly also including stocks quoted on AIM or PLUS, selecting companies which Shore Capital believes will have a relatively lower risk profile than is typical for their size whilst having the opportunity for value appreciation. Initially, whilst suitable Qualifying Companies are being identified, the Investment Manager will invest the net proceeds of the Offers in a range of investments intended to generate a positive return, including funds of hedge funds and other products which aim to achieve an absolute return. The Companies will continue to hold a proportion of such products after building up the desired holdings of Qualifying Companies.

The Investment Manager will manage the Companies’ assets proactively with an emphasis on realising gains in the medium term. Shore Capital will select Qualifying Investments with a strong emphasis on reducing downside risks as well as gaining upside. High risk investments will be avoided, whilst solid and well managed growth companies, whether unquoted or AIM/PLUS-traded, will be selected.

Each of the Companies will have the same investment objectives and policies. The use of two VCTs which will co-invest together will allow a greater investment size in an investee company than would be possible for a single VCT investing alone. This should permit the more efficient use of proceeds of the Offers in fewer, larger investments with a view to reducing the overall investment risk.

The Companies’ present intention is to invest and divest together pro rata to their size and will therefore hold identical portfolios except that Puma VCT V may close its fundraising earlier and hence begin investing earlier. To the extent that Puma VCT V makes a Qualifying Investment prior to the close of the fund-raising of Puma VCT VI, the portfolios may be different. To the extent that the Companies are not identical in size, other VCT rules may prohibit their holdings being exactly pro rata to funds raised (in particular, the restriction on holding more than 15 per cent. in any one company).

Prior to an investment being made, it is expected that each potential investee company will be subject to a rigorous due diligence process with the key selection criteria being: an experienced and proven management team; a credible, sound business plan; and strong financial controls. The Companies will select Qualifying Investments with a strong emphasis on reducing downside risks but with upside potential, avoiding high risk, high reward investments and focussing on solid well-managed growth companies.

The Companies have no present intention of utilising gearing themselves as a strategy for improving or enhancing returns although within the portfolios of some of the hedge

funds in which the Companies may invest may utilise gearing. To the extent that there is a change of policy in respect of gearing, then each Company shall restrict the borrowings of both it and any subsidiaries so that it shall not exceed 25 per cent. of the aggregate total amount received from time to time on the subscription of shares of that Company.

The Companies will not vary their investment policy to any material extent without the approval of Shareholders.

The Qualifying Investments Portfolio

For their Qualifying Investments, the Companies are expected to invest primarily in companies whose shares are not traded on any exchange, although they may also invest in companies whose shares are traded on AIM or PLUS, and each will invest up to a maximum of £1,000,000 in any single Qualifying Investment. The Investment Manager will seek to construct a portfolio diversified by sector. The objective will be to identify established companies which seek expansion capital or are subject to a buy-out or buy-in or, on a selective basis, there is an opportunity to provide liquidity for other shareholders. It is expected that a substantial proportion of the Qualifying Investments will be in the form of mezzanine or fully secured loans, offered together with ordinary equity.

The much tighter market in credit for companies which has followed the “credit crunch” of August 2007 has engendered and, it is believed, is likely to continue to engender a strong demand for this type of offering. The Investment Manager has substantial expertise in structuring and executing these types of financing for Qualifying Companies.

The Non-Qualifying Investments Portfolio

Until suitable Qualifying Investments are identified, the net proceeds of the Offers will be invested in a portfolio of hedge funds and other investments, with a focus on providing absolute returns to Investors, or on cash deposit. It is intended that the Non-Qualifying Investments will be held in such a way that sufficient funds will be readily available to make Qualifying Investments when needed. The Companies will continue to hold a proportion of such products after three years.

Under current VCT legislation, the Companies must have at least 70 per cent. of their investments in Qualifying Companies within 3 years, and the Companies intend to invest at least 75 per cent. of their investments (as permitted in this legislation) in Qualifying Companies by that date. However, this programme of investment in Qualifying Companies will take time to complete; thus in the first three years a considerable proportion of the Companies’ funds (initially all of their funds) will need to be invested elsewhere, in Non-Qualifying Investments. After the end of the three years of initial investment in Qualifying Investments, the VCTs will continue to hold a proportion of its funds in Non-Qualifying Investments.

The portfolio of Non-Qualifying Investments will be managed with the intention of generating a positive return. Subject to the Investment Manager’s view from time to time of desirable asset allocation it will comprise quoted and unquoted investments (direct or indirect) in cash or cash equivalents, mezzanine loans, bonds, equities, vehicles investing in property, funds of funds and a portfolio of hedge funds.

The Companies may invest directly in hedge funds and may also invest indirectly through a holding in the Puma Absolute Return Fund (“PARF”), described below, or in independently managed funds of funds. The intention will be to achieve, overall, a diversified portfolio of hedge fund interests. The Investment Manager will only select “absolute return” investments with limited liability and the Companies will not have any principal involvement in hedge fund activities or act as a hedge fund. Risk will be spread as the Companies will hold less than 15 per cent of their assets in any individual hedge fund, fund of funds or other collective investment undertaking.

The Investment Manager has been managing a portfolio of hedge funds since July 2001 and currently manages PARF, a US \$135 million fund of hedge funds, structured as an open ended investment company with its shares being listed on the Irish Stock Exchange. PARF was launched in April 2003 and had produced a return of 42.3 per cent. from inception to the end of November 2007. Shore Capital believes that a portfolio of hedge funds provides an opportunity to diversify away from difficult equity markets and other traditional asset classes. The aim is to achieve consistent and competitive capital appreciation by investing in a diversified portfolio of hedge funds that use alternative asset management strategies.

Deal flow

Shore Capital has many years experience of investing in smaller companies to produce above average returns for investors. This has enabled it to establish a good network of contacts, including other fund managers, stockbrokers and professional advisers, which should ensure a good deal flow. In addition, members of the investment management team have regular meetings with smaller companies, a number of which may be suitable for investment by the Fund, which should increase the opportunities to participate in secondary fund raisings.

In 1995 AIM was launched by the London Stock Exchange specifically to meet the needs of smaller and growing companies. Since its launch, the AIM market has become an attractive source of new capital for dynamic growth companies capable of significant value appreciation. The less onerous admission requirements, lower costs and ability to attract VCT monies continue to make AIM a highly attractive market for growing smaller companies. The Directors expect this growth in the AIM market to continue and that there will be a satisfactory number of eligible new issues by companies quoted on AIM, which will provide investment opportunities for the Fund. As at November 2007, there were 1,684 companies on AIM with a combined market capitalisation of over £97 billion. In the year to November 2007, 254 new companies floated on AIM raising approximately £6.2 billion, while an additional £8.6 billion has been raised by AIM companies in secondary fundraisings.

Co-investment policy

The Companies expect to co-invest with the other VCT funds managed by the Investment Manager and the Companies should benefit from the enhanced deal flow and greater ability to co-invest in larger deals. The Puma VCTs are either two or three years older than the Fund and are likely to be wound up during the life of the Fund, which may create further opportunities for the Fund to supply new capital to replace funding made by the Puma VCTs. The Puma VCTs also operate under different HM Revenue & Customs rules for establishing whether an investment is a Qualifying

Investment. Where the Investment Manager identifies suitable opportunities for investment by the Companies or the Puma VCTs, it will in general offer such opportunities pro rata to the initial size of the net funds raised by the Companies and the Puma VCTs, other than where the investment is a follow-on to a pre-existing investment. However, the Investment Manager, in consultation with the Boards (the majority of which are independent of the Investment Manager), will have the discretion to allocate the opportunity differently to reflect considerations such as the remaining life of a company, the requirement to achieve or maintain a minimum of 70 per cent. of a VCT's portfolio in Qualifying Investments or the availability of funds.

Shore Capital also manages other funds which can invest in the same types of companies as the Companies or the Puma VCTs. Where the Companies and/or the Puma VCTs are co-investing in deals with other Shore Capital managed funds then the Investment Manager will take into account such factors as the risk profile and investment strategy of the participating funds when deciding how much a Company will invest.

If situations arise where the Companies propose to invest in the same companies as other funds managed by Shore Capital, but at a different time or on different terms, any such proposed investment will require approval from the Boards, the majority of which are independent of the Investment Manager.

The Board of each of Puma VCT V and Puma VCT VI will be responsible for determining that Company's investment policy and will have overall responsibility for that Company's activities.

Post-investment management

The Investment Manager will monitor each investment closely and will expect to meet with the management of investee companies on a regular basis.

As the values of underlying investments increase, Shore Capital will monitor opportunities for the Fund to realise gains, and make tax free distributions to Shareholders.

Where possible, underperforming investments will be disposed of if the Investment Manager believes that there is unlikely to be any capital appreciation in the short to medium term.

Valuation policy

Investments in AIM and PLUS-traded shares will be valued at prevailing bid prices in the market, unless it is thought necessary to make any adjustment for illiquidity.

Investments in hedge funds and funds of hedge funds will be valued on the basis of net asset value per share as reported by the administrator of each fund held. These funds typically permit investors to redeem their shares at net asset value per share using the next valuation published after the redemption notice period (typically 30 days).

All other investments will be valued by the Directors on the recommendation of the Investment Manager in accordance with International Private Equity and Venture

Capital Valuation (“IPEVC”) guidelines. IPEVC guidelines have replaced BVCA guidelines for investment companies investing in unquoted investments and reporting under IFRS.

The underlying principle of IFRS is that investments should be reported at fair value. Fair value is the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm’s length transaction.

In estimating fair value for an investment, the methodology applied must be appropriate to the nature, facts and circumstances of the investment and its materiality based on reasonable assumptions and estimates. Such methodology, including earnings multiple, cost, cost less a provision for net assets, should be applied consistently.

Shore Capital Fund Administration Services Limited will be responsible for determination and calculation of the net asset value of the Companies in accordance with the policies set out above.

In addition to the Companies’ interim statements and annual reports, there will be quarterly announcements of these values to Shareholders.

1.4 The investment management team and Boards

The investment management team

Shore Capital will manage both the portfolio of Qualifying Investments and Non-Qualifying Investments.

A summary CV for each of the principal members of the investment management team is shown below:

Craig Cowan (40)

Craig qualified as a chartered accountant with Deloitte & Touche Johannesburg in 1994 and is a Chartered Financial Analyst. After working for the Johannesburg Stock Exchange, he co-founded Consilium Capital in South Africa, a specialist stock broking and asset management firm before heading up equity capital markets at Global Capital Securities. He moved to London at the beginning of 2001 and joined Brown Shipley Securities where he managed the corporate broking team, specialising in smaller UK listed (largely AIM) and unlisted companies. Craig joined Shore Capital at the beginning of 2005 and is involved in the management of the Puma VCTs.

Eliot Kaye (33)

Eliot joined Shore Capital in 2006 following seven years at top city law firm Berwin Leighton Paisner LLP, firstly qualifying as a trainee solicitor and then as an associate in the corporate finance group. He advised on a substantial amount of M&A and private equity deals, and was short-listed as a nominee for the Associate of the Year Award at the Legal Week Awards 2004. Eliot has been involved in managing the Puma VCTs and The Puma (II) Fund, including the structuring and execution of new deals for the funds and representing the funds with investee companies.

Christopher John Ring, ACA, (53)

Chris joined Shore Capital in 2002 from NatWest Stockbrokers Limited of which he was managing director between 1999 and 2001. After qualifying as an accountant with Coopers & Lybrand (now part of PricewaterhouseCoopers), he held senior positions at various stockbrokers firms, including Scrimgeour Kemp Gee (now Citicorp) between 1980 and 1988 and Wise Speke between 1988 and 1996. Throughout this time his focus was on managing private client funds, including the appraisal and investment of a wide range of new issues many of which were AIM quoted. Within the Shore Capital Group, Chris is responsible for both the private client portfolio and hedge fund management activities.

Matthew Setchell (30)

Matthew graduated from Bristol University in 1999 with a degree in Economics and Accounting with Law. After leaving university, Matthew joined the Transfer Pricing and Economic Consulting team of PricewaterhouseCoopers. He took an MBA at the University of Cambridge Judge Business School and rejoined PwC in a new team focused on the financial services sector. Matthew joined Shore Capital in early 2005, as Investment Manager, at the time that Puma VCT and Puma VCT II were being raised.. Having been involved in all of the Puma VCTs to date, Matthew has built up extensive experience of the investment process from review and analysis of business plans, through initial fact finding, detailed due diligence, working with advisors to complete deals and then ongoing monitoring of the investments.

Howard Shore (47)

Howard Shore is Executive Chairman of Shore Capital Group, which was founded in 1985. Howard began his career in private client discretionary fund management with Grieveson Grant & Co (now part of Dresdner Kleinwort Wasserstein). In 1996, after more than ten years of investing in smaller growth companies, Howard established Puma I of which he was also lead manager. In 1999, Puma II was launched, of which he is also the lead manager. In August 2000 Shore Capital acquired JellyWorks plc, an AIM listed investment company which held a portfolio of quoted and unquoted companies. Howard has been involved in the management of this portfolio.

Graham Shore (51)

Graham was previously a partner in Touche Ross (now Deloitte & Touche) and was responsible for the London practice advising the telecommunications and new media industries. At Touche Ross he undertook strategic and economic assignments for a wide range of clients including appraisals of venture capital opportunities. In 1990 he joined the Shore Capital Group as managing director, and has been involved in managing the Puma VCTs and the JellyWorks portfolio, including evaluation of new deals for the funds and representing the funds with investee companies. Graham has been involved with AIM since its inception as both a corporate financier and investor and with private equity for more than 20 years.

The Boards

The Boards of each Company comprise three Directors, all of whom are non-executive. In respect of Puma VCT V, David Vaughan and Stephen Hazell-Smith are independent of the Investment Manager and in respect of Puma VCT VI, Jeremy Prescott and Jon Morton-Smith are independent of the Investment Manager and the third director of both Companies, Graham Shore, is a director of the Investment Manager. Although the

management of each Company's portfolio has been delegated to the Investment Manager, the Directors retain overall responsibility for the Companies' affairs.

The Directors of Puma VCT V are:

David Vaughan (53)

David was until recently a managing director at the Royal Bank of Scotland, most recently in charge of banking relationships to the media sector in the UK for its global banking markets division. Prior to that he held a range of other senior appointments in the bank and has a broad range of experience in the supply of credit to companies of all sizes. He holds qualifications from the Securities Institute in corporate finance and the Chartered Institute of Banking. David is a non-executive director of Music Sales Group Limited.

Stephen Hazell-Smith (54)

Stephen is a UK institutional fund manager by background, including the founder and managing director of Rutherford Asset Management Limited where he created a number of highly successful smaller company investment vehicles, including Herald Investment Trust and Beacon Investment Trust. In 1997 he sold Rutherford Asset Management Limited to Close Brothers Group and joined Close Investment Limited as managing director, where he was responsible for launching Close Brothers AIM VCT. He is a director of Close Brothers AIM VCT plc, Chairman of Phoenix VCT plc, Chairman of Conduit PR Limited and Chairman of PLUS Markets Group plc.

Graham Shore (51)

See biography above.

The Directors of Puma VCT VI are:

Jeremy Prescott (58)

Jeremy is a consultant to IMAS Corporate Advisors Limited, which specialises in selling companies in the UK financial services sector. Jeremy qualified as a chartered accountant with Peat Marwick Mitchell & Co. (now part of KPMG LLP) and worked with ICFC (now 3i Group plc) from 1979 to 1982. He worked in the Corporate Finance & Advisory Division of HSBC Investment Bank plc (formerly Samuel Montagu & Co. Limited) from 1982 to 2002, where he originated, structured, negotiated and implemented a wide variety of corporate transactions. Appointed a managing director in 1997, Jeremy's focus was on medium and smaller-sized companies with an emphasis on flotations, acquisitions and sales. From 2004 to 2007 he was a non-executive director of Maxima Holdings plc, an AIM-quoted software company. He was awarded an MSc in Investment Management from City University in 2004.

Jon Morton-Smith (56)

Jon is a banking and finance consultant specialising in private debt investment and mid-sized corporate real estate businesses. Having worked for Midland Bank since 1969 he moved to London in 1982 to focus on real estate lending where he was Corporate Banking Director in 1991 and Area Manager/Property Industry Advisor in 1994. Jon left this role to start his own consultancy business in 1998. He then joined AXA

Investment Managers with a £1 billion mandate to start a new private debt investment portfolio. Having successfully invested £650 million, changing investment attitudes within AXA resulted in Jon resigning to continue his private consultancy in 2004. AXA remain one of his major clients with contracts relating to real estate debt investment as well as with structured finance project finance. He also acts as banking and finance consultant to a small retail investment and development company based in Yorkshire and has a range of other similar consultancy contracts.

Graham Shore (51)

See biography above.

The Directors have committed to invest an aggregate of £240,000 under the Offers on the same terms as Investors.

1.5 The management arrangements

Investment Manager

Shore Capital has been appointed as the investment manager of each Company for an initial period of five years, which can be terminated by not less than twelve months' notice, given at any time by either party, on or after the fifth anniversary. Under the terms of this agreement Shore Capital will be paid an annual fee of 2.0 per cent. (exclusive of VAT) of the Net Asset Value of the relevant Company payable quarterly in arrears.

Performance Incentive

Shore Capital and members of the investment management team will be entitled to a performance related incentive of 20 per cent. of the aggregate excess on any amounts realised by each Company in excess of £1 per Ordinary Share, and Shareholders will be entitled to the balance. This incentive will only be payable once the Ordinary Shares have received distributions of £1 (whether capital or income). The performance incentive structure provides a strong incentive for the Investment Manager to make distributions as high and as soon as possible.

This will be effected through the issue of Loan Notes to a nominee on behalf of the Investment Manager's group and employees of and persons related to the investment management team. In the event that distributions attributable to the Ordinary Shares of £1 per share have been made the Loan Notes will convert into sufficient Ordinary Shares to represent 20 per cent. of the enlarged number of Ordinary Shares.

1.6 Dividend policy

Generally, a VCT must distribute by way of dividend such amount as to ensure that it retains not more than 15 per cent. of its income from shares and securities. The Directors aim to maximise tax free distributions to Shareholders by way of dividends paid out of income received from investments and capital gains received following successful realisations. Upon liquidation of the Companies, the balance of the funds will be distributed to Shareholders. All such distributions are expected to be free of tax to UK taxpayers.

Shareholders who wish to have dividends paid directly into a bank account, rather than by cheque to their registered address, should complete the dividend mandate form printed on the reverse of the Application Form. Further dividend mandate forms can be obtained upon request from the Companies' registered office.

1.7 Repurchase of Ordinary Shares

Although it is anticipated that the Ordinary Shares will be admitted to the Official List and to trading on the London Stock Exchange's market for listed securities, there is likely to be an illiquid market and in such circumstances Shareholders may find it difficult to sell their Ordinary Shares in the market. In order to try to improve the liquidity in the Ordinary Shares, the Boards intend to establish a buy back policy whereby each Company will purchase Ordinary Shares for cancellation. Consequently, the Companies may consider buying back Ordinary Shares. It is expected that the NAV will be announced on a quarterly basis. Shareholders are reminded that if they hold their Ordinary Shares for less than five years they are likely to lose their income tax relief.

1.8 Reporting to Shareholders

The Directors believe that communication with Shareholders is important. In addition to quarterly announcements of the Companies' NAV being released to the London Stock Exchange, Shareholders will receive a copy of the Companies' annual report and accounts (expected to be published each June) and a copy of the Companies' interim results (expected to be published each November).

The Companies' first report and accounts are expected to be published in June 2009 and will be in respect of the period from incorporation to 31 December 2008.

All Qualifying Subscribers will automatically be provided with certificates enabling them to claim income tax relief.

1.9 Corporate Governance

The Boards are committed to the principle and application of sound corporate governance and confirm that the Companies have taken appropriate steps, relevant to their size and operation complexity, to comply with the Combined Code on Corporate Governance (June 2006) and comply save that the Companies will not have remuneration committees as they consider themselves to be small and because the Boards are comprised wholly of non executive directors. The audit committee of each Company is comprised of its Board of Directors.

1.10 Status of the Companies and the Investment Manager

The Companies are unregulated although VCTs need to meet a number of conditions set out in tax legislation in order for tax reliefs to apply.

The Investment Manager is authorised to conduct investment business by the Financial Services Authority.

1.11 Taxation and HM Revenue & Customs approval

The Directors intend to manage the Companies' affairs in order that they comply with the legislation applicable to VCTs. In this regard PricewaterhouseCoopers has been appointed to advise on tax matters generally and, in particular, on VCT status. HM Revenue & Customs has granted the Companies provisional approval as VCTs, effective from the date of Admission. Full approval will be sought as soon as possible, but will only be granted by HM Revenue & Customs once 70 per cent. of the Companies' investments are represented by Qualifying Investments and the Companies have complied with the other requirements relating to VCT qualification. PricewaterhouseCoopers will assist Shore Capital (but report directly to the Boards) in establishing the status of each investment as a Qualifying Investment and will monitor progress towards achieving full VCT approval. Once full approval has been given, the Companies must continue to satisfy the requirements of HM Revenue & Customs in relation to VCTs, or they are likely to lose full approval.

1.12 Life of the Fund

It is intended that the Companies should not have a fixed life but the Directors will review the portfolio after the first 5 years of trading with a view to an orderly liquidation of the Companies' assets and the distribution of capital and income to the Shareholders. Any such distributions are expected to be free of tax to UK taxpayers.

1.13 Costs of the Offers and annual fees and expenses

Costs of the Offers

The issue costs of the Offers (including irrecoverable VAT) will be 2 per cent. of the gross proceeds raised. This cost structure differentiates the Companies from other VCTs where issue costs of between 5 per cent. and 5½ per cent. of the funds raised are more typical. The lower issue costs of the Companies should contribute to the prospects of attractive returns to Investors. The Directors believe that this lower issue cost structure is the lowest for any VCT to date.

Annual fees and expenses

Shore Capital will be paid an annual investment management fee of 2 per cent. (plus VAT) of the Net Asset Value. The fee will be payable quarterly in arrears.

Shore Capital Fund Administration Services Limited will provide administrative services to the Companies for an aggregate annual fee of 0.35 per cent. of the Net Asset Value (plus VAT), payable quarterly in arrears.

The Directors of each VCT estimate that in the period from incorporation until 31 December 2008, fees payable to them will not exceed £33,000.

The Companies will also be responsible for their normal third party costs including listing fees, audit and taxation services, registrars' fees, directors' fees and other incidental costs. Excluding the Investment Manager's annual fee, it is expected that the

running costs of the Companies per year will be about 1 per cent. of the Net Asset Value. The Directors expect that the annual costs will be around 3 per cent. of the Net Asset Value per annum (as has been the case for Puma VCT and Puma VCT II). In any event the Investment Manager has agreed to reduce its fee (if necessary to nothing) to contain total annual costs to within 3.5 per cent. of Net Asset Value.

A maximum of 75 per cent. of the Companies' management expenses will be capable of being charged against capital reserves with the balance charged against revenues.

1.14 Details of the Offers

It is proposed to raise an aggregate of up to £40 million by means of the Offers, payable in full, by cheque or banker's draft, on subscription. The Offers will open on 23 January 2008 until the earlier of 3.00 p.m. on 29 February 2008 and the date on which the maximum subscription is reached. The Promoter may extend the closing date of the Offers at its discretion. The Offers are not underwritten. The maximum net proceeds of the Offers, assuming full subscription, will be approximately £39,200,000. The minimum subscription level under the Offers for Puma VCT V is £1,000,000. There is no minimum subscription level for Puma VCT VI, but note should be taken of the discretion of the Promoter in relation to allocations of subscriptions to Puma VCT VI.

The subscriptions for the Offers will, subject always to the Promoter's absolute discretion, be applied as follows:

- The first £10 million of the subscription proceeds will be applied in capitalising Puma VCT V only;
- The next £10 million of the subscription proceeds will be applied in capitalising Puma VCT VI only; and
- After subscriptions of £20 million have been received they will, so far as is possible, be divided evenly between the Companies.

However, the Promoter will have absolute discretion to allot Ordinary Shares in whichever Company it considers to be appropriate. This discretion could result in no Ordinary Shares being allotted in Puma VCT VI. It is intended that Investors will receive Ordinary Shares in only one of the Companies.

Irrevocable commitments to invest £240,000 under the Offers, on the same terms as other Investors, have been received from the Directors.

The profile of a typical Investor is an individual with substantial income, capital available to commit for 3 to 5 years and who is attracted by the income tax relief available for a VCT investment.

Applications will be accepted on a first come, first served basis (provided cheques are not post dated), subject always to the discretion of the Directors. Investors are encouraged to submit their Application Forms early in order to be confident that their subscriptions will be successful. Multiple applications are permitted.

The minimum application level under the Offers is £5,000.

The full terms and conditions of application are set out in Part VI of this document and an Application Form, together with details of the application procedure, is set out at the end of this document.

1.15 Allotment, dealings and settlement

Application has been made to the UK Listing Authority for the Ordinary Shares in each of Puma VCT V and Puma VCT VI issued pursuant to the Offers to be admitted to the Official List and to the London Stock Exchange for the Ordinary Shares to be admitted to trading on its market for listed securities.

It is intended that an initial allotment of Ordinary Shares will be made as soon as the minimum subscription level of £1 million for Puma VCT V is reached. Thereafter, subscriptions will be allocated as described under “Details of the Offers”. Successful applicants will be notified by post.

In all cases however, the Directors reserve the right to make allotments of Ordinary Shares at their discretion. Dealings are expected to commence on 31 May 2008.

Ordinary Shares will be issued in registered form and will be freely transferable in both certificated and uncertificated form and it is anticipated that definitive share certificates will be issued within 10 business days of each allotment.

Ordinary Shares will be capable of being transferred by means of the CREST system. Investors who wish to take account of the ability to trade their Ordinary Shares in uncertificated form (and who have access to a CREST account) may arrange through their professional adviser to convert their holding into dematerialised form.

1. Tax Position of the Fund

1.1 Qualifying as a VCT

In order to qualify as a VCT, a company must satisfy the following conditions in each accounting period:

- 1.1.1 it must be approved as a VCT by HM Revenue & Customs;
- 1.1.2. it must not be a close company;
- 1.1.3 throughout the period, each class of its ordinary share capital must be quoted on the Official List;
- 1.1.4 it must derive its income in the period wholly or mainly from shares or securities;
- 1.1.5 it must have at least 70 per cent. by value of its investments throughout the period in newly issued shares or securities (where the securities are not redeemable within 5 years of issue) comprised in Qualifying Holdings, of which at least 30 per cent. by value must be ordinary shares which carry no preferential rights;
- 1.1.6 it must have at least 10 per cent. by value of its investments in any Qualifying Company in ordinary shares which carry no preferential rights;
- 1.1.7 it must have not more than 15 per cent. by value of its investments throughout the period in a single company or group (other than a VCT, or other similar company);
- 1.1.8 it must generally not retain more than 15 per cent. of the income which it derives from shares and securities in the period;
- 1.1.9 it, or any of its subsidiaries, must not conduct any trading activity which is significant in the context of the group as a whole; and
- 1.1.10 it must not invest more than 10 per cent. in aggregate, of the value of its total assets (at the time the investment is made) in other listed closed-ended investment funds.

In order, however, to facilitate the launch of VCTs, there is a relaxation of some of these tests during the Company's first and, in the case of test 1.1.5, up to the third accounting period (see below under the heading, "Approval as a VCT").

1.2 Qualifying Holdings

- 1.2.1 it must be unquoted (which will, in the case of a company which was unquoted at the time of the VCT's investment, be deemed to be the case for a further five years after the company ceases to be unquoted). Companies whose shares are traded on AIM or PLUS are treated as unquoted.
- 1.2.2 it must be a Qualifying Company (see below under the heading "Qualifying Companies");
- 1.2.3 it must have gross assets of £7 million or less immediately pre-investment and £8 million or less immediately post investment (in the case of companies which have Qualifying Subsidiaries (see below), the test is applied on a group basis);
- 1.2.4 it (or a relevant Qualifying Subsidiary of the company) must apply the money invested for the purposes of a Qualifying Trade, which is carried out wholly or mainly in the UK, (see below under the heading, "Qualifying Companies") within certain time periods;
- 1.2.5 it must not be able to control (whether on its own or together with a connected

- person) any company which is not a Qualifying Subsidiary;
- 1.2.6 it must not be controlled by another company (on its own or together with a connected person);
- 1.2.7 it must have fewer than 50 employees immediately pre-investment; and
- 1.2.8 it must not have any property managing subsidiaries which do not fall into the definition of relevant Qualifying Subsidiaries (see below).

In addition, a Qualifying Company can receive no more than £2 million in any twelve month period from Venture Capital Trusts which raised funds after 5 April 2007, the Enterprise Investment Scheme or the Corporate Venturing Scheme. In certain circumstances, a holding can be split into part-Qualifying Holdings and part-non-Qualifying Holdings.

1.3 Qualifying Companies

A Qualifying Company is a company which exists to carry on one or more Qualifying Trades (see below) or is the parent of a trading group, where each of its subsidiaries is a Qualifying Subsidiary and the group as a whole is not engaged in non-qualifying activities (see below).

For the purposes of the Qualifying Holdings test in paragraph 1.1.4 above, a subsidiary will be a relevant Qualifying Subsidiary if at least 90 per cent. of its issued share capital and its voting power is directly owned by the Qualifying Company or by a wholly owned Qualifying Subsidiary. A relevant Qualifying Subsidiary can also be a wholly owned subsidiary of a 90 per cent. owned subsidiary. Certain other tests as to the distribution of the subsidiary's profits and assets on a winding-up must also be satisfied.

In the case of the Qualifying Holdings test in paragraph 1.1.5 above, a subsidiary will be a Qualifying Subsidiary if the majority of its issued share capital is owned by the Qualifying Company and the other tests are also satisfied.

A trade will be a Qualifying Trade only if it does not to a substantial extent include non-qualifying activities (non-qualifying activities include dealing in land or shares, providing financial services or activities which are largely land-based, such as farming, hotels and nursing homes). In the case of a company which is preparing to carry on a Qualifying Trade, the Qualifying Trade must begin within two years of the issue to the VCT of the shares or securities, and must continue thereafter.

1.4 Approval as a VCT

A VCT must be approved as such at all times by HM Revenue & Customs. Approval has effect from the time specified in the approval, which cannot be earlier than the time at which the application for approval is made.

A VCT cannot be approved until the relevant tests (see above under the heading, "Qualifying as a VCT") have been satisfied throughout the most recent complete accounting period of the VCT and HM Revenue & Customs is satisfied that the tests will be satisfied in relation to the accounting period of the VCT which is current at the time the application is made.

However, in order to facilitate the launch of VCTs, HM Revenue & Customs may grant provisional approval to a VCT, notwithstanding that not all the relevant tests are satisfied at the time of the application, provided that HM Revenue & Customs is satisfied that the tests will be satisfied within a certain period. In particular, HM Revenue & Customs may grant provisional approval if it is satisfied that:

1.4.1 the relevant tests in paragraphs 1.1.3, 1.1.4, 1.1.7 and 1.1.8 under the heading, “Qualifying as a VCT” above will either be satisfied in the accounting period current when the application for approval is made or the following accounting period;

1.4.2 the relevant test in paragraphs 1.1.5 under the heading, “Qualifying as a VCT” above, will be satisfied in relation to any accounting period beginning not more than three years after the time when approval is given, or if earlier, when it has effect; and

the relevant tests in paragraphs 1.1.3, 1.1.4, 1.1.5, 1.1.7 and 1.1.8 under the heading, “Qualifying as a VCT” above, will continue to be satisfied in all subsequent accounting periods.

The Companies have been granted provisional approval as VCTs effective from Admission.

1.5 Withdrawal of approval

Approval as a VCT may be withdrawn by HM Revenue & Customs if the relevant tests (see above under the heading, “Approval as a VCT”) are not satisfied. Withdrawal of approval generally has effect from the time when notice of withdrawal is given to the VCT but, in relation to capital gains of the VCT only, can be backdated to not earlier than the first day of the accounting period commencing immediately after the last accounting period of the VCT in which all the tests were satisfied. The actions proposed to be taken by the Companies in the case of a withdrawal of approval will be announced through a regulatory information service.

Where provisional approval is withdrawn, approval is deemed to have never been given. The taxation consequences of approval being deemed to have never been given are set out below under the heading “Loss of VCT status”.

2. Tax Considerations for Shareholders

2.1 Individual Shareholders

The following is a summary of the tax benefits available to VCTs and their individual shareholders who are either Qualifying Subscribers or Qualifying Purchasers. It assumes that the VCT has one class of shares only.

Investors who are in any doubt as to their tax position are recommended to take professional advice.

For each accounting period in respect of which a company is approved by HM Revenue & Customs as a VCT, the company is exempt from corporation tax on chargeable gains. The company continues to be liable to corporation tax on income in the usual way.

A number of tax benefits are available to individuals, aged 18 or over, who invest in shares in a VCT. The tax benefits available to those individuals are different, depending on whether the individual subscribes for shares or acquires shares otherwise than by way of subscription. There is also a limit (the Qualifying Limit) on the amount which, in any tax year, an individual may invest in VCTs which will qualify for any tax benefits. The current limit is £200,000. **Investments in ordinary shares in VCTs in excess of the Qualifying Limit will not be eligible for any tax benefits.**

Set out below is a summary of the tax benefits available to Qualifying Subscribers and Qualifying Purchasers.

2.2 Qualifying Subscribers (not Qualifying Purchasers)

The tax relief is available on aggregate investments in VCTs of up to £200,000 in any one tax year. Where advantage is taken of this relief, a Qualifying Subscriber will be able to obtain total initial tax relief of up to 30 per cent. of the amount of his investment, as shown in the table below.

Maximum effect of initial tax relief

	No VCT tax relief	30 per cent. income tax relief
Initial investment	£100,000	£100,000
30 per cent. income tax relief	-	(£30,000)
Effective current cost of the investment	£100,000	£70,000

Whereas the above relief is only available on subscription, for Qualifying Subscribers and Qualifying Purchasers on investments up to a maximum of £200,000 in VCTs in any one tax year, dividends will be exempt from income tax; and any profits on the disposal of the shares will be exempt from capital gains tax.

Relief from income tax up to 30 per cent. will be available on subscriptions for shares in a VCT, subject to the Qualifying Limit (currently £200,000 in each tax year). The relief, which will be available in the year of subscription, cannot exceed the amount which reduces the income tax liability of the Qualifying Subscriber in that year to nil. Relief may not be available if there is a loan linked with the investment.

Relief will not be available, or, where given, will be withdrawn, either in whole or in part, where there is any disposal (except on death) of the shares (or of an interest in them or right over them) before the end of the period of five years beginning with the date on which the shares were issued to the Qualifying Subscriber.

2.3 Qualifying Subscribers and Qualifying Purchasers

2.3.1 Exemption from capital gains tax

Any gain or loss accruing to Qualifying Subscribers or Qualifying Purchasers on a disposal of shares in a company which was a VCT at the time he, or she, acquired the shares, and remained a VCT throughout his, or her, period of ownership, will neither be a chargeable gain, nor an allowable loss, for the purposes of capital gains tax.

2.3.2 Exempt dividend income

Dividend income will be exempt from tax. No tax credits will be repayable in respect of dividends paid.

2.3.3 Procedure for obtaining income tax reliefs available to Qualifying Subscribers

All Qualifying Subscribers will automatically be provided with certificates enabling them to claim income tax relief. The certificate will specify details of the shareholder, the date on which the shares were issued and the amount paid for the shares, and also will certify that the shares have been issued to a Qualifying Subscriber, and that certain other conditions are met to the best of the VCT's knowledge and belief. The relief may not be available unless the Qualifying Subscriber holds such a certificate.

The investor may use the certificate to claim income tax relief either by obtaining from HM Revenue & Customs an adjustment to his tax coding under the PAYE system or by waiting until the end of the tax year and using a Self Assessment Tax Return to claim the relief. Dividends received on shares acquired in VCTs up to the qualifying maximum value of £200,000 per tax year need not be shown in the investor's Self Assessment Tax Return.

2.4 Loss of VCT status

The following is a summary of the tax consequences for VCTs and their shareholders resulting from a loss of VCT status.

2.4.1 **VCTs**

Exemption from corporation tax on chargeable gains will not be available in relation to any gain realised after the VCT status is lost (and on any gain realised by the VCT if approval is deemed never to have been given).

2.4.2 **Qualifying Subscribers**

Income tax relief on investment

Where VCT approval is treated as never having been given, or where it is withdrawn before the shares have been held for five years, the relief will be withdrawn in full, and the Qualifying Subscriber will be assessed to tax in the tax year in which the relief was given on an amount equal to that relief. Interest on overdue tax may arise.

2.4.3 **Qualifying Subscribers and Qualifying Purchasers**

1. Exempt dividend income

Dividend income will not be exempt from tax if the dividend is paid in respect of profits or gains arising or accruing in any accounting period in which the VCT is not approved as such.

2. Exemption from capital gains

Where VCT approval is treated as never having been given, any gains and losses arising on a disposal of shares in the VCT will be taxable and allowable in the ordinary way. Where VCT approval is withdrawn at any time (whether or not the shares have been held for five years), the Qualifying Subscriber or the Qualifying Purchaser will be treated as having disposed of his shares immediately before the VCT ceased to be approved, for an amount equal to their market value at that time, and as having immediately reacquired them at that value. Thus, any capital gain up to that date will be exempt from tax, but any gains arising after that date will be taxable in the ordinary way.

3 Memorandum and Articles of Association

3.1 The memorandum of association of each Company provides that its principal object is to carry on the business of a Venture Capital Trust. The objects of the Companies are set out in full in Clause 4 of the memorandum of association, which is available for inspection at the address specified in paragraph 7 below.

3.2 Articles of Association

The articles of association of each Company which were adopted on 18 December 2007 contain, *inter alia*, provisions to the following effect:

3.2.1 Voting Rights

Subject to any disenfranchisement as provided in paragraph 3.2.5 below and subject to any special terms as to voting on which any Shares may be issued, on a show of hands every member present in person (or being a corporation, present by authorised representative) shall have one vote and, on a poll, every member who is present in person or by proxy shall have one vote for every Share of which he is the holder. The Shares shall rank *pari passu* as to rights to attend and vote at any general meeting of the relevant Company.

3.2.2 Rights Attaching to the Redeemable Preference Shares

Each of the Redeemable Preference Shares carries the right to a fixed dividend of 0.1 per cent. per annum (exclusive of any imputed tax credit available to shareholders) on the nominal amount thereof, but confers no right to vote except as otherwise agreed by the holders of a majority of the Shares. On a winding-up the Redeemable Preference Shares confer the right to be paid the nominal amount paid on such shares. The Redeemable Preference Shares are redeemable at any time by the relevant Company and by the holder at any time after the minimum aggregate subscription level is raised under the Offers. Each Redeemable Preference Share which is redeemed, shall, thereafter, be re-designated as and sub-divided into 100 Shares in the authorised, but unissued capital of the relevant Company, without further resolution or consent.

3.2.3 Transfer of Shares

The Ordinary Shares are in registered form and will be freely transferable. All transfers of Ordinary Shares must be effected by a transfer in writing in any usual form or any other form approved by the Directors. The instrument of transfer of an Ordinary Share shall be executed by or on behalf of the transferor and, in the case of a partly paid share by or on behalf of the transferee. The Directors may refuse to register any transfer of a partly paid Share, provided that such refusal does not prevent dealings taking place on an open and proper basis and may also refuse to register any instrument of transfer unless:

- 3.2.3.1 it is duly stamped (if so required), is lodged at the relevant Company's registered office or with its registrars or at such other place as the Directors may appoint and is accompanied by the certificate for the shares to which it relates and such other evidence as the Directors may reasonably require to show the right of the transferor to make the transfer;
- 3.2.3.2 it is in respect of only one class of share; and
- 3.2.3.3 the transferees do not exceed four in number.

3.2.4 Dividends

Each Company may in general meeting by ordinary resolution declare dividends in accordance with the respective rights of the members, provided that no dividend shall be payable in excess of the amount recommended by the Directors. The Directors may pay such interim dividends as appear to them to be justified. No dividend or other monies payable in respect of an Ordinary Share shall bear interest as against the relevant Company. There are no fixed dates on which entitlement to a dividend arises.

All dividends unclaimed for a period of twelve years after being

declared or becoming due for payment shall be forfeited and shall revert to the relevant Company.

3.2.5 Disclosure of Interest in Ordinary Shares

If any member or other person appearing to be interested in shares of either of the Companies is in default in supplying within 42 days (or 28 days where the shares represent at least 0.25 per cent. its the share capital) after the date of service of a notice requiring such member or other person to supply to the relevant Company in writing all or any such information as is referred to in section 793 of the 2006 Act, the Directors may, for such period as the default shall continue, impose restrictions upon the relevant shares.

The restrictions available are the suspension of voting or other rights conferred by membership in relation to meetings of the Companies in respect of the relevant shares and additionally in the case of a shareholder representing at least 0.25 per cent. by nominal value of any class of shares of the relevant Company then in issue, the withholding of payment of any dividends on, and the restriction of transfer of, the relevant shares.

3.2.6 Distribution of Assets on Liquidation

On a winding-up any surplus assets of each Company respectively will be divided amongst the holders of its Shares according to the respective numbers of Shares held by them in the relevant Company and in accordance with the provisions of the Act, subject to the rights of any shares which may be issued with special rights or privileges. The articles of association provide that the liquidator may, with the sanction of a resolution and any other sanction required by the Act, divide amongst the members in specie the whole or any part of the assets of the relevant Company in such manner as he may determine.

3.2.7 Changes in Share Capital

3.2.7.1 Without prejudice to any rights attaching to any existing shares, any share may be issued with such rights or restrictions as each Company may by ordinary resolution determine or in the absence of such determination, as the Directors may determine. Subject to the Act, each Company may issue shares, which are, or at the option of the relevant Company or the holder are, liable to be redeemed.

- 3.2.7.2 Each Company may by ordinary resolution increase its share capital, consolidate and divide all or any of its share capital into shares of larger amount, sub-divide its shares or any of them into shares of smaller amounts, or cancel or reduce the nominal value of any shares which have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount so cancelled or the amount of the reduction.
- 3.2.7.3 Subject to the Act, each Company may by special resolution reduce its share capital, any capital redemption reserve and any share premium account, and may also, subject to the Act (and by resolution of the holders of the shares repurchased where such shares are convertible shares), purchase its own shares.

3.2.8 Variation of Rights

Whenever the capital of either Company is divided into different classes of shares, the rights attached to any class may (unless otherwise provided by the terms of issue of that class) be varied or abrogated either with the consent in writing of the holders of not less than three-fourths of the nominal amount of the issued shares of the class or with the sanction of a resolution passed at a separate meeting of such holders.

3.2.9 Directors

Unless and until otherwise determined by either Company in General Meeting pursuant to Article 122 the number of Directors shall not be less than two nor more than ten. The continuing Directors may act notwithstanding any vacancy in their body, provided that if the number of the Directors be less than the prescribed minimum the remaining Director or Directors shall forthwith appoint an additional Director or additional Directors to make up such minimum or shall convene a General Meeting of that Company for the purpose of making such appointment.

Any Director may in writing under his hand appoint (a) any other Director, or (b) any other person who is approved by the Board of Directors as hereinafter provided to be his alternate. A Director may at any time revoke the appointment of an alternate appointed by him. Every person acting as an alternate Director shall be an officer of the Company, and shall alone be responsible to the Company for his own acts and defaults, and he shall not be deemed to be the agent of or for the Director appointing him.

Subject to the provisions of the Act, the Directors may from time to time appoint one or more of their body to be Managing Director or Joint Managing Directors of either Company or to hold such other executive office in relation to the management of the business of that Company as they may decide.

A Director of a Company may continue or become a Director or other officer, servant or member or any company promoted by that Company or in which it may be interested as a vendor shareholder, or otherwise, and no such Director shall be accountable for any remuneration or other benefits derived as director or other officer, servant or member of such company.

The Directors may from time to time appoint a President of a Company (who need not be a Director of the Company) and may determine his duties and remuneration and the period for which he is to hold office.

The Directors may from time to time provide for the management and transaction of the affairs of the Company in any specified locality, whether at home or abroad, in such manner as they think fit.

3.2.10 Directors' Interests

3.2.10.1 A Director who is in any way, directly or indirectly, interested in a transaction or arrangement with either Company shall, at a meeting of the Directors, declare, in accordance with the Act, the nature of his interest.

3.2.10.2 Provided that he has declared his interest in accordance with paragraph 3.2.10.1, a Director may be a party to or otherwise interested in any transaction or arrangement with the relevant Company or in which that Company is otherwise interested and may be a director or other officer or otherwise interested in any body corporate promoted by the Company or in which the Company is otherwise interested. No Director so interested shall be accountable to the Company, by reason of his being a Director, for any benefit that he derives from such office or interest or any such transaction or arrangement.

3.2.10.3 A Director shall not vote nor be counted in the quorum at a meeting of the Directors in respect of a matter in which he has any material interest otherwise than by virtue of his interest in shares, debentures or other securities of, or otherwise in or through either Company, unless his interest arises only because the case falls within one or more of the following paragraphs:

3.2.10.3.1 the giving to him of any guarantee, security or indemnity in respect of money lent or an obligation incurred by him at the request of or for the benefit of the relevant Company or any of its subsidiary undertakings;

3.2.10.3.2 the giving to a third party of any guarantee, security or indemnity in respect of a debt or an obligation of the relevant Company or any of its subsidiary undertakings for which he has

assumed responsibility in whole or in part under a guarantee or indemnity or by the giving of security;

3.2.10.3.3 any proposal concerning the subscription by him of shares, debentures or other securities of the relevant Company or any of its subsidiary undertakings or by virtue of his participating in the underwriting or sub-underwriting of an offer of such shares, debentures or other securities;

There are no other contracts, not being contracts entered into in the ordinary course of business, entered into by the Companies which contain any provision under which the Companies have an obligation or entitlement which is material to the Companies as at the date of this document:

5.1 Offer Agreement

Under the Offer Agreement dated 21 January 2008 and made between each Company (1), the Directors (2), the Sponsor (3), the Investment Manager (4) and the Promoter (5), the Sponsor has agreed to act as sponsor to the Offers and the Promoter has undertaken as agent of the Companies to use its reasonable endeavours to procure subscribers under the Offers for up to 20,000,000 Ordinary Shares in each Company. The Promoter will be entitled to any interest earned on subscription monies prior to the allotment of Ordinary Shares which will be applied to defray the costs of the Offers. Under the Offer Agreement, the Companies will pay the Promoter a commission of 2 per cent. of the aggregate value of accepted applications for Ordinary Shares received pursuant to the Offers.

Out of this fee, the Promoter will pay all other costs and expenses of or incidental to the Offers and Admission including paying the Sponsor's fee of £25,000 (plus VAT). Total initial costs payable by the Companies under the Offer Agreement will therefore be limited to 2 per cent. of the gross proceeds of the Offers.

Under the Offer Agreement, which may be terminated by the parties in certain circumstances, the Investment Manager, the Promoter, the relevant Company and the Directors have given certain warranties and indemnities. Warranty claims must be made by no later than three months after the first annual general meeting of the relevant Company following the closing date of the Offers at which Shareholders approve the Company's accounts or by the date either Company is subject to a takeover. The warranties and indemnities are in usual form for a contract of this type and the warranties are subject to limits of the greater of £1,000,000 or 5% of the proceeds of the Offers for the Promoter and the Investment Manager, and one year's director fees for each Director. The Companies have also agreed to indemnify the Sponsor in respect of its role as Sponsor and under the Offer Agreement. The Offer Agreement may be terminated, *inter alia*, if any statement in the Prospectus is untrue, any material omission from the Prospectus arises or any breach of warranty occurs.

The Investment Manager will receive an annual fee (exclusive of VAT) equal to 2.0 per cent. of the Net Asset Value payable quarterly in arrears until the termination of the Investment Management Agreement. The Investment Manager is also entitled to reimbursement of expenses incurred in performing its obligations. In respect of investments made in companies that are not listed on AIM, the Investment Manager is entitled to charge investee companies fees for arrangement and structuring and, to the extent that other services are provided, additional fees as may be agreed. Unless the Boards agree otherwise, fees payable to the Investment Manager by investee companies for arranging and structuring investments (but not syndication or other services) will not exceed 3 per cent of the value of the total invested by each Company (and any other investor to whom the Investment Manager syndicates any part of the investment) and in the case of periodical fees up to £30,000 per Company per annum (index-linked)(plus VAT, if applicable).

The appointment will continue for a period of 5 years from Admission and thereafter terminate on 12 calendar months' notice by either party given at any time on or after the fifth anniversary of the agreement, provided that in the event of such notice being given by a Company, it shall have been approved beforehand by special resolution of the Shareholders at an Annual General Meeting of that Company. The Investment Management Agreement is subject to earlier termination by either party in certain circumstances.

Alternatively such conflicts will be disclosed to the Companies

The Companies may treat Applications as valid and binding even if not made in all respects in accordance with the prescribed instructions and the Companies may, at their discretion, accept an Application in respect of which payment is not received by the Companies prior to the closing of the Offers. If any Application is not accepted in full or if any contract created by acceptance does not become unconditional, the application monies or, as the case may be, the balance thereof will be returned (without interest) by returning each relevant Applicant's cheque or bankers' draft or by crossed cheque in favour of the Applicant, through the post at the risk of the person(s) entitled thereto. In the meantime, application monies will be retained by the Receiving Agent in a separate account. The Offers will not be withdrawn after dealings in the Ordinary Shares have commenced.
4. By completing and delivering an Application Form, you:
 - 4.1 offer to subscribe for the number of Shares specified in your Application Form (or such lesser number for which your Application is accepted) at the Offer Price on the terms of and subject to this document, including these terms and conditions, and subject to the memorandum and articles of association of the Companies;

- 4.2 agree that, in consideration of the Companies agreeing that they will not on or prior to the Offers closing issue or allot any Shares the subject of the Offers to any person other than by means of the procedures referred to in this document, your Application may not be revoked and that this paragraph shall constitute a collateral contract between you and each Company which will become binding upon despatch by post to, or (in the case of delivery by hand) on receipt by, the Receiving Agent of your Application Form;
- 4.3 agree and warrant that your cheque or banker's draft may be presented for payment on receipt and will be honoured on first presentation and agree that if it is not so honoured you will not be entitled to receive a certificate in respect of the Ordinary Shares until you make payment in cleared funds for such Ordinary Shares and such payment is accepted by the Companies in their absolute discretion (which acceptance shall be on the basis that you indemnify it, the Sponsor, and the Receiving Agent against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of your remittance to be honoured on first presentation) and you agree that, at any time prior to the unconditional acceptance by either of the Companies of such late payment, the Companies may (without prejudice to their other rights) avoid the agreement to subscribe such Ordinary Shares and may issue or allot such Ordinary Shares to some other person, in which case you will not be entitled to any payment in respect of such Ordinary Shares, other than the refund to you, at your risk, of the proceeds (if any) of the cheque or banker's draft accompanying your Application, without interest;
- 4.4 agree that, in respect of those Ordinary Shares for which your Application has been received and is not rejected, your Application may be accepted at the election of the Companies either by notification to the London Stock Exchange of the basis of allocation or by notification of acceptance thereof to the Receiving Agent;
- 4.5 agree that any monies refundable to you may be retained by the Receiving Agent pending clearance of your remittance and any verification of identity which is, or which the Companies or the Receiving Agent may consider to be, required for the purposes of the Money Laundering Regulations 2007 (as amended) and that such monies will not bear interest;
- 4.6 authorise the Receiving Agent to send share certificate(s) in respect of the number of Ordinary Shares for which your Application is made (or any lesser number for which your Application is accepted) and/or a crossed cheque for any monies returnable, by post, without interest, to your address set out in the Application Form and to procure that your name is placed on the register of members of one or both the Companies in respect of such Ordinary Shares;
- 4.7 agree that all Applications, acceptances of Applications and contracts resulting therefrom shall be governed by English law, and that you submit to the jurisdiction of the English courts and agree that nothing shall limit the right of the Companies or the Sponsor to bring any action, suit or proceeding arising out of or in connection with any such Applications, acceptances of Applications and contracts in any other manner permitted by law or any court of competent jurisdiction;

- 4.8 confirm that, in making such Application, you are not relying on any information or representation in relation to the Companies other than the information contained in this document or the Prospectus and accordingly you agree that no person responsible solely or jointly for this document, or any part thereof or involved in the preparation thereof shall have any liability for such information or representation;
- 4.9 irrevocably authorise the Receiving Agent and/or the Sponsor or any person authorised by either of them, as your agent, to do all things necessary to effect registration of any Ordinary Shares subscribed by or issued to you into your name and authorise any representative of the Receiving Agent or of the Sponsor to execute any document required therefore;
- 4.10 agree that, having had the opportunity to read this document, you shall be deemed to have had notice of all information and statements concerning the Companies and the Shares contained therein;
- 4.11 confirm that you have reviewed the restrictions contained in paragraph 6 below and warrant that you are not a "US Person" as defined in the United States Securities Act of 1933 ("Securities Act") (as amended), nor a resident of Canada and that you are not applying for any Shares with a view to their offer, sale or delivery to or for the benefit of any US Person or a resident of Canada;
- 4.12 declare that you are an individual aged 18 or over;
- 4.13 agree that all documents and cheques sent by post to, by or on behalf of the Companies or the Receiving Agent will be sent at the risk of the person entitled thereto;
- 4.14 agree, on request by the Companies, or the Sponsor on behalf of the Companies, to disclose promptly in writing to the Companies, any information which the Companies or the Sponsor may reasonably request in connection with your Application including, without limitation, satisfactory evidence of identity to ensure compliance with the Money Laundering Regulations 2007, VCT legislation or other legislation (as the same may be amended from time to time) and authorise the Companies and the Sponsor to disclose any information relating to your Application as it considers appropriate;
- 4.15 agree that neither the Sponsor nor the Promoter will treat you as its customer by virtue of your Application being accepted or owe you any duties or responsibilities concerning the price of the Shares or the suitability for you of Shares or be responsible to you for providing the protections afforded to its customers;
- 4.16 where applicable, authorise the Companies to make on your behalf any claim to relief from income tax in respect of any dividends paid by the Companies;
- 4.17 declare that the Application Form has been completed to the best of your knowledge;
- 4.18 undertake that you will notify the Companies if you are not or cease to be either a Qualifying Subscriber or beneficially entitled to the Shares; and

- 4.19 declare that a loan has not been made to you or any associate, which would not have been made or not have been made on the same terms, but for you offering to subscribe for, or acquiring, Shares and that the Shares are being acquired for bona fide commercial purposes and not as part of a scheme or arrangement the main purpose of which is the avoidance of tax.
5. No person receiving a copy of this document or an Application Form in any territory other than the UK may treat the same as constituting an invitation or offer to him, nor should he in any event use such Application Form unless, in the relevant territory, such an invitation or offer could lawfully be made to him or such Application Form could lawfully be used without contravention of any regulations or other legal requirements. It is the responsibility of any person outside the UK wishing to make an Application to satisfy himself as to full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any other formalities requiring to be observed in such territory and paying any issue, transfer or other taxes required to be paid by such territory.
 6. The Ordinary Shares have not been and will not be registered under the Securities Act, as amended, and may not be offered or sold in the United States of America, its territories or possessions or other areas subject to its jurisdiction ("the USA"). In addition, the Companies have not been and will not be registered under the United States Investment Company Act of 1940, as amended. The Investment Manager will not be registered under the United States Investment Advisers Act of 1940, as amended. No application will be accepted if it bears an address in the USA.
 7. The basis of allocation will be determined by the Directors of each Company in their absolute discretion after consultation with the Promoter. The right is reserved to reject in whole or in part and/or scale down and/or ballot any Application or any part thereof including, without limitation, Applications in respect of which any verification of identity which the Companies or the Receiving Agent consider may be required for the purposes of the Money Laundering Regulations 2007 has not been satisfactorily supplied.
